

Kendy Nguyen

kendyhnguyen1991@gmail.com | (619) 788-7636 | San Diego, CA

EDUCATION

California State Polytechnic University, Pomona
Bachelor of Science, Computer Engineering

Graduation Class: Spring 2018

PERSONAL PROJECTS

Let Me In Application

- A CRUD application that allows a single user to add a home to a database with the corresponding gate/access code and search for the home while on route
- Frontend: React; Backend: Node, Express, MongoDB

Personal Web Portfolio

- My personal portfolio showcasing my projects that I have done. Designed with a responsive UI.
- HTML, CSS, JavaScript, React, Gatsby

WORK EXPERIENCE

PETLYcbd

San Diego, CA

Contracted Web Developer

August 2019 – Present

- Customized existing Shopify theme to client's needs by creating new schemas and components
- Applied client's color palette to the theme by changing the settings in the theme. If settings were not present then I created them in the schema

NanocraftCBD

San Diego, CA

Contracted Front-end Engineer

July 2019 – Present

- Ensure any uploaded images would center and cover a div when uploaded via 'object-fit: cover' in CSS
- Converted certain images from .png to .svg to avoid pixilation issues caused when scaling from desktop to mobile
- Changed color of certain DOM elements to stay consistent with client's current color theme
- Add on hover color change to links to further emphasize clickable content

Calvine Landscape

San Diego, CA

Contracted Web Developer

June 2019 – Present

- Frontend: Gatsby; Backend: Sanity Headless CMS
- Designed prototype of static site in Figma to show proof of concept for the client
- Developed a lightbox modal for gallery component with functioning left, right, and exit controls
- Currently in build process: www.calvinlandscape.com

Amazon

San Diego, CA

Logistics Associate & Deliveryperson

October 2018 – Present

- Tracked inventory for my designated route to ensure the correct number of packages were delivered
- Carefully handled and delivered 150+ packages a day to customers

Potato Corner

Arcadia, CA

Customer Service Associate & Food Handler

June 2016 – September 2016

- Responsible for serving food in a high traffic mall kiosk
- Acquired exceptional multi-tasking skills working in a fast-paced environment

Everyone Counts

San Diego, CA

Quality Assurance Engineer Intern

October 2014 – September 2015

- Developed script in Java to automatically export PDF from Google Chrome browser
- Submitted detailed bug reports via Jira software so that the development team could patch the bugs
- Created and executed test cases while adhering to established software quality standard
- Used regression testing after developers fixed bugs to ensure software is operational
